

COMPACT EXCAVATOR

R25Z-9AK

Operating weight: 2580 kg (Cabin) / 2430 kg (Canopy) Engine Power: 18.5 kW (24.9 HP) / 2400 rpm Bucket capacity: 0.07 m³

HYUNDAI R25Z-9AK COMPACT EXCAVATOR

Walk-around

R25Z-9AK

Productivity & Efficiency

- Advanced hydraulic system
- Swing boom function
- Various piping options
- Excellent break out forces
- Compact design: Zero tail swing

Operator comfort

- Spacious cabin
- Ergonomic soft grip joysticks
- Centralised monitoring system with warning indicators
- Mechanical suspension seat with seat belt
- Armrests
- Radio & MP3-player

Serviceability & Durability

- Wide opening hood & covers
- Easy-to-serve air cleaner
- Centralised grease fittings
- Long-life hydraulic oil and filters
- Durable shims & bushings
- Extended lifetime components

Safety

- Robust, stress-resistant upper frame
- X-type centre frame
- Excellent visibility
- Boom/dozer cylinder cover

HYUNDAI R257-9AK COMPACT EXCAVATOR

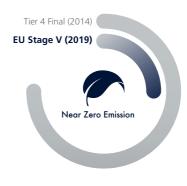

Productivity & Efficiency

EFFICIENT PERFORMANCE IN LIMITED-SPACE **ENVIRONMENTS**

Developed for maximum productivity, the R25Z-9AK has a compact design and zero tail swing radius to allow efficient operation in confined spaces. Its robust, eco-friendly Kubota engine is powerful, reliable and fuel-efficient, while the hydraulic system enables fast operation combined with high controllability. The result is a versatile and dependable workhorse that

The compact Kubota D1305 EU Stage V compliant engine is powerful, fuel-efficient and keeps emissions to a minimum without requiring additional aftertreatment systems. The engine combines high performance with low noise and vibration.

Upper and lower frame

The upper frame structure is designed to absorb high external stress. An X-type centre frame and reinforced box section track frame provide exceptional strength and durability.

Hydraulic oil and filter

All components are selected for extended service intervals, low operating costs and minimal machine downtime. This includes bushings with prolonged lube intervals (250 hrs), wear-resistant, noise-reducing polymer shims and long-life hydraulic filters (1000 hrs) and hydraulic oil (5000 hrs). Efficient cooling systems and integrated preheating systems further enhance performance and durability.

There's no need for a truck to transport the R25Z-9AK between jobs. It can be moved on a small trailer, with an ordinary car driver's licence.

Trailer transport

Cabin structure

The robust cabin structure is built using integrally welded slow-stress, high-strength steel to form a tough, durable upper and lower frame. Structural integrity has been tested using FEM (Finite Elements Method) analysis and long-term durability tests.

Selector valve

Cylinder covers

additional protection.

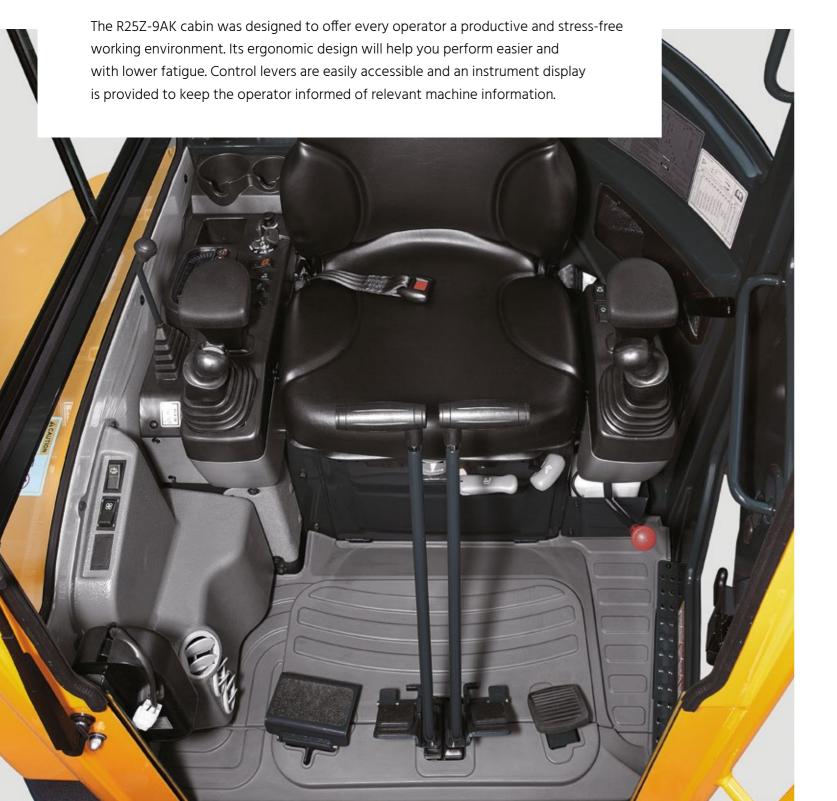

The standard boom cylinder cover

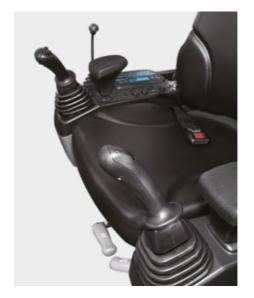

and dozer cylinder cover provide

The selector valve makes it easy to select single acting piping (for a breaker) or double acting piping (for a clamshell). It is placed on the front side of the fuel tank for quick access and control. HYUNDAI R25Z-9AK COMPACT EXCAVATOR

Operator comfort

COMFORT AND CONVENIENCE DESIGNED AROUND YOU

"There's plenty of space and everything I need is right where I need it!"

Control levers

The left- and right-hand control levers are located for maximum convenience. The joysticks have enough space for additional option switches. An optional pattern change valve enables easy adaptation of the joystick control pattern.

Storage

The right-hand console features different-sized cupholders for storing large and small drinks. A lockable storage box is installed under the seat to hold your belongings.

The left-side console can be tilted, making it easier to enter and exit the cabin.

Pedals

The travel, boom offset and attachment pedals are configured for maximum comfort. The pedals can be folded in to create extra foot space.

Slidable front window

The slidable front window (cabin model only) is easy to open and is held safely in the open position.

HYUNDAI R25Z-9AK COMPACT EXCAVATOR

Safety

PROTECTION FOR YOU AND YOUR EQUIPMENT

The R25Z-9AK features a range of innovations to offer extra protection for you and your surroundings. The zero tail swing ensures that you can work safely and confidently in confined spaces, close to walls, on roadways or in urban areas. All-round visibility is maximised, whether you choose the cabin model with its large windows and narrow pillars, or an open canopy.

bin

The operator is protected by a robust cabin structure, built using strong, slim tubing to optimise both sturdiness and visibility. The canopy and cabin frame comply with international TOPS, ROPS and FOG standards.

Safety lever

A safety lever is installed to prevent unintentional activation of the hydraulic attachments. When the safety lever is positioned upright, hydraulic functions are disabled.

Boom swing

The boom swing function is designed for safe, efficient work in congested residential and urban areas. The boom can be offset to the left or right within an operating range.

Indicators and gauges

An array of gauges and warning indicators are displayed on the monitor. The monitoring system allows you to check machine status at a glance and includes an hour meter, oil pressure lamp, battery change lamp, engine coolant temperature gauge and fuel gauge.

Serviceability & Durability

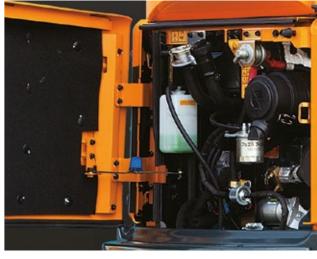

EASY SERVICING FOR TROUBLE-FREE OWNERSHIP

Working to a busy schedule, you need equipment that runs smoothly and can be easily maintained. The R25Z-9AK is designed for fast, easy servicing and monitoring with convenient access to important servicing points.

Air cleaner

The durable air cleaner is designed for convenient maintenance.

Engine hood/cover

Wide opening doors, covers and hoods provide easy access for servicing tasks.

Centralised grease fittings

The lubrication bank centralises grease fittings for quick, easy servicing.

HYUNDAI R257-9AK COMPACT EXCAVATOR

Genuine parts and warranties

THE BEST WAY TO PROTECT YOUR INVESTMENT

Hyundai Genuine Parts, accessories and warranty programmes are specially designed to keep your machine covered. They increase uptime and maintain the performance, comfort, and convenience that are built into your equipment.

Fuel filters

Hyundai fuel filters provide the right degree of filtration to keep your engine clean. They are designed to meet and exceed the engine manufacturer's prerequisites for water separation and dirt filtration, prolonging the life of your engine.

Undercarriage parts

Hyundai track components deliver exceptional ride performance. The materials used comply with stringent quality control measures to ensure the highest reliability.

Hyundai Genuine parts

Hyundai Genuine parts have the same design as those installed when your machine left the factory. They are subjected to rigorous quality inspections and tests to make sure they meet Hyundai's strict requirements for quality and durability. As well as minimising downtime, this helps to ensure peak performance on every task.

Hyundai warranties

Our warranties are designed to give you the cover you need to build your business with confidence and peace of mind.

Standard warranties

We offer standard warranty coverage for all compact excavators. In addition to this standard coverage, optional and extended warranty periods are available, so you can benefit from full warranty coverage for longer, and even over the full lifetime of your machines. Please discuss the optimal solution for your needs with your local Hyundai dealer.

Extended warranties

Our extended warranties help you maintain full control over your operating costs. If you combine an extended warranty programme with a tailored maintenance contract, you can completely avoid unexpected costs.

A network you can rely on

Hyundai Construction Equipment Europe prioritises quick, reliable intervention to keep your equipment running reliably. In the 13000 m² warehouse, Hyundai covers over 96% of all Genuine Parts. With one of Europe's most advanced automated warehousing systems, we are able to maintain availability and efficient delivery of all our Genuine Parts. Moreover, we guarantee a 24-hour delivery service across our European dealer network.
